

Dear Parents,

This week we have used alliteration and onomatopoeia in poems about animals. The whole class wrote their ideas down on large pieces of paper which had pictures of different animals on. They loved looking at each others' ideas and the funny alliterations especially for 'p'...

The following day we used these to write our own poems called The Zoo. They were brilliant! The class certainly have got the idea of using alliteration and onomatopoeia!

In maths we continued using 'exchange' in subtraction and as this is becoming more accurate, I have been able to make the questions more complex during the week.

On Wednesday we had our first transition into Year 3. This week I went with the class and we made a flower and wrote sentences about ourselves for Mr Brown on each petal. It was nice to be in there all together, they had a good look round and sat at the tables. We also looked where we'll hang out coats and where the reading books and homework goes. Next week they'll be spending the afternoon in Year 3 with Mr Brown.

Next week is Sports Week in school. We have the Long Distance event on Tuesday, some sports related maths challenges and finally we have Sports Day on Friday. The children are welcome to wear trainers for this.

As part of our 'Along the Pilgrims Way' topic I am taking the class on a circular walk of Lenham on Tuesday 11th July at 1pm. If you would like to come please let me know next week.

Have a lovely weekend,
Mrs Martin
