

It has certainly been an energetic Sports Week. The children were brilliant in the Monday's Triathlon, showed extreme stamina and determination on Tuesday's long distance run, coped well with the heat whilst practising their sports day on Wednesday and finally a great time was had by all at today's Sports day!

In **English**: The children have been focusing on their handwriting as they continue to edit their Fairy Stories. For a bit of fun, some children created a comic strip using random pictures that they had collected on their way round at the sports run.

Next week the children will:

- Become familiar with the structure of a play
- Role play a scene
- Begin to write a piece of dialogue as a play script.

There will also be a spelling and reading assessment next week.

In **Maths** this week the children have reviewed their learning on multiplication and division and are now more confident with factor pairs and how to tackle word problems.

Next week most children will:

- Identifying and describing Perimeter and area of a rectangle and 2D shapes
- Convert length and find the missing number
- Solve fraction of length problems
- Solve simple measure and money problems involving fractions

Active Learn: In order to give the children more prior practise to refresh their understanding; I am reallocating three activities that cover both area and perimeter to help the children to recap the process involved.

CONGRATULATIONS: Charlotte, Oskar, Vincent, Edward, Isabel and Daniel Jones who regularly complete their Active Learn homework. Some of you will be given mastery homework for these tasks to take home on Monday.

Home Learning: You would have seen they have had a couple of weeks off of this due to not being in school last Friday and this week being sports day, but next week I'll be sending home a times table challenge.

Have a great weekend,
The Year 4 Team.
