

Dear Parents

Thank you for all the take away cartons! We were able to have a very successful science lesson as a result. We tested four different materials for plugging a hole in a 'boat' and recorded our results. We even tried to write our first conclusion!

This week in English we have concentrated on learning the features of the four different sentence types: statements, commands, exclamations and questions. see if your child can tell you about them!

In maths we have been dividing. Next week our focus is Statistics and we will be learning about tally charts and pictograms.

Tuesday we are off to Greenfields for a multi skills afternoon. If you are able to come along please let me know asap!

The homework has changed, remember only do ONE of the categories of Hot, Super Hot and Volcano Hot, along with the problem solving. Please show all the working out on the back so I can see how they are getting on. Also any notes you write are always very helpful to tell me how much support they needed.

Have a lovely weekend,
Mrs Martin
