

This week in Year 6 we have been finding percentage increases and decreases, as well as revising our knowledge of fractions and decimals.

We have also been writing a biography of a fictional character. The children have been focusing on their use of verb tenses as well as the difference between a story and a biography.

In the afternoons, the class have been revising their French vocabulary about their hobbies and sports.

Next term we are looking forward to:

- Beginning our maths topic of algebraic sequences.
- Starting the term with a 'writing week' focusing on WWII.
- Our last full term before the SATs exams!

Homework

Homework this week is a writing task- children should also aim to spend time on timestablerockstars and spag.com over the half term if possible. The writing task is to write a biography of someone influential to the children- this could be someone they know or used to know, or could be a famous individual. Children should aim to write at least a page if possible and include a picture of their subject.

Spellings lists are available on the website and children have had copies sent home.

It is expected that all children know their times tables up to 12x12 by now. Testing is carried out every Wednesday.

Thank you for your support with this. If your child is unable to complete the homework for whatever reason, please let me know via a letter. Internet access is available at school for those who do not have it at home.
