

We have reached the end of Term 4!

This week the children have:

- Finished publishing their Lighthouse story on the computers.
- Divided 1 and 2 digit numbers by 100.
- Taken part in Bikeability training.
- Completed an animation of the Good Samaritan on the iPads.
- Learned about the different events in the Christian Holy Week and taken part in an Easter Experience run by The Family Trust group.

### **Bikeability:**

We were certainly lucky with the weather on Monday! Congratulations to all of the children in Year 4 for taking part in Bikeability training. The children enjoyed their session and behaved brilliantly of course. They will have taken home their certificates today.

### **Homework:**

Having completed a termly spelling check-up assessment, I felt it a little unfair to subject the children to their normal weekly spelling test as well. So with that in mind, please could the children practise the last 2 weeks of their spelling list for Term 4? We will then test both weeks on the first Monday back after the Easter holidays.

### **Term 5:**

Next term our topic is called Home Sweet Home. The children will be learning about, grouping and classifying animals and plants in the environment, and finding out about food chains.

Have a wonderful Easter break and see you next term!

The Year 4 Team
