

This week the children have:

- Finished and evaluated their stories linked to Elf Road.
- Written another story called Something Fishy!
- Ordered and rounded amounts of money.
- Solved money word problems using the four operations.
- Planned their ideas for a small 3D model of a chosen insect.
- Taken part in a habitat hunt around the school grounds and used a map to record their findings.

### **Buster's Book Club:**

This week an amazing 15 children read for Buster's Book Club which was a huge improvement on the previous week. Thank you so much for your support with this! Congratulations to Sofia who was the winner for Class 4.

### **Newspaper Appeal:**

Over the next two weeks, the children will be making a 3D model of an insect. To do this we need lots of newspaper so if you any unwanted newspaper at home, please could you send it in next week? Thank you in advance!

### **Homework:**

Many of the children produced some amazing Science homework, which is now being displayed in the classroom. I was so impressed with their work that I asked Miss Howell to come and take a look. The children really enjoyed presenting their work to her.

For any children who have not yet managed to complete the Science homework, they were given the opportunity to collect some facts from the class library today to enable them to complete the homework over the weekend and submit it on Monday.

This week's homework is an activity on ActiveLearn. The children should have their login details on a sticky label in their reading record book. The game is called Balloon Pop and it contains questions linked to adding amounts of money. It might be useful for the children to record their working out on a piece of paper if they need to. Homework needs to be completed by Thursday 17<sup>th</sup> May.

Have a great weekend.

Mrs Fisher and the Year 4 Team
