

This week we have:

- Written our own Flat Stanley adventures.
- Recapped time and fractions in maths.
- Played cricket and handball games in PE.
- Investigated how water is transported in plants.

Next term we will have PE with Miss Cavannagh therefore we will have PE on a Monday afternoon and a Thursday afternoon. Please make sure your child has a PE kit in school for the first Monday back.

There is no homework for the half term. All we ask is that the children read regularly (recording this in their reading records) and continue to go on Times Table Rock Stars.

Next term our topic is called Light Fantastic. We will be learning about light in Science, looking at shapes and angles in maths, Writing poems and adventure stories in English, Using compass points in Geography and much more.

Finally as a request over the half term, If you have any unwanted magazines, newspapers, leaflets, cardboard boxes or cardboard tubes please could you send them into school on the first day back. They will come in really handy for some of the projects we will be working on next term, thank you.

Have a wonderful break.

See you next term.

The Year 3 Teaching Team.
