

This week we have:

- Written poems about animals and dragons.
- Identified and compared angles.
- Had a visit from the Cats Protection.
- Used the 8 points of a compass to follow directions and create routes.

This term our topic is Light fantastic. Our science focus will therefore be Light, if your child would like to bring something in for our topic table to do with light this is absolutely fine. Thank you for the donations of cardboard boxes and magazines. There is still plenty of time to bring in any of the following unwanted items: **Large cardboard boxes, magazines, newspapers and cardboard tubes.**

This is a very busy term and there is lots going on, including Sports Week (with Sports Day at the end of it). This term our PE sessions will be on a Monday and a Thursday however we would advise that PE kits should be in school at all times as they will be required for Sports Day practices. We will mostly be outside for PE so trainers may also be useful to have.

Class 3 won attendance Ted on the last week of term; this is only the second time our class has won it! We were pleased that (mostly) all children were present every day and hope to see this continue for our final term. Perhaps we can also win Punctuality Pup too.

Finally the weather is warming up. Please ensure your child has a water bottle, cap and has sun cream applied (especially for PE days). We are lucky to have spacious grounds and, in these summer weeks, lessons will often involve being outside.

Thank you

The Year 3 Teaching Team.
