

This week in Year 6 we have enjoyed Sports Day, running the Daily Mile and completing the long distance sponsored event. We have learned about the importance of healthy eating and exercise, as well as enjoying the sunshine! Additionally, we have learned about Michelangelo's paintings in the Sistine Chapel- we even had a go at sketching from underneath the table to give ourselves an idea of how much hard work it took!

Next week we are looking forward to:

- Putting the finishing touches to the KS2 production.
- Debating some interesting issues as part of our SRE module.
- Our Enterprise fair on Tuesday 10<sup>th</sup> July after school.

#### Homework

Homework this week is slightly ironic considering this week was Sports' week! As you know, the Enterprise project the children have been working on primarily focuses on salt dough sculptures, including fridge magnets. The children would like to sell these next week to raise funds for their Leavers' Cream Tea. To raise even more money, we would like each student to bake some cakes to sell alongside their salt dough sculptures. The children should use their imagination and obviously their maths skills to bake their cakes from recipes- please ensure that all ingredients are labelled. The cakes should be brought in on Tuesday 10<sup>th</sup>. Thank you in advance for your support with this.

Homework this term will be based on other areas of the curriculum apart from English and maths. There will be elements of the core subjects, of course, but it is important to also develop scientific and creative skills as well before the children enter year 7. If you have any queries about this, please let me know!

Thank you for your support with this. If your child is unable to complete the homework for whatever reason, please let me know via a letter. Internet access is available at school for those who do not have it at home.
