

Dear Parents,

Welcome to Class 2! The children have all settled in well and are learning the routines of where to put their things and who turn it is to help, and what those jobs are.

This week in English we have written about our summer holidays. The children were full of their stories and really enjoyed sharing their experiences. We began our class story of Treasure Island and tried to predict what would happen to Jim Hawkins and what the pirates would do. Finally we planned and wrote about our first week in Year 2. Hopefully they've told you lots about their week too!

In maths we have been learning about Place Value and the value of tens and ones in a two digit number and this will continue next week. We are using lots of resources to support their learning such as Base 10, Numicon and place value counters.

I have introduced our topic 'Adventures at Sea' using Treasure Island. Next week we will be learning about Grace Darling, Lighthouses and the RNLI.

Monday after school there is a Meet the Teacher in the Year 2 classroom. I will be introducing myself to you and explaining some of the details of the Year 2 curriculum as well as giving you 'housekeeping' information (PE days etc). Hopefully you can make it, if not, I shall be giving out a hand out which covers everything I'll talk about and I'll make sure you get one.

Have a lovely weekend,

Mrs Martin
