

This week in Year 6 we have voted for our House Captains, continued to look at 'Skellig' and worked as a team to solve problems in PE!

We have also attended the residential trip at Kingswood in Ashford. A great time was had by all!

Next week we are looking forward to:

- Moving onto long division in maths lessons.
- Writing formal letters using a professional format.
- Starting our computing topic 'Programming'.

Homework

The children have not been set homework this week due to the residential trip. They should rest and recover for Monday!

Reading Record

The children have been given a reading record to complete over the course of the year. We expect the children to read five times a week and on one of these occasions they should read to an adult. This is important as it provides a check on the fluency and accuracy of reading and also provides an opportunity to talk about what the child is reading. Please remember that reading comes in many different forms e.g. newspaper articles, recipes, magazine articles, instructions, non-fiction books. It is always good to explore a range of genres.

Curriculum

The school has published detailed information about your child's curriculum on the school website. There you will be able to find year group related information about the maths, reading and writing lessons we will teach during the year. This is so that you can easily see how well your child is doing, and offer them support at home should you wish.

The Year 6 team
