

This week we have:

- Added and subtracted 1 digit numbers and 3 digit numbers.
- Written animal fact files about robins, deer, hedgehogs and foxes.
- Played games of basketball.
- Created wildlife pointillism artwork.

There are now curriculum plans for Maths and English on the Year 3 class page of the school website. This shows all of the topics we will cover in Maths and English throughout the year.

This week's homework has been sent out. It involves using conjunctions, adding 1 digit and 3 digit numbers and spelling words with the 'ch' sound spelt 'ture'.

Have a good weekend,

The Year 3 Teaching Team
