

So far during the 2018/2019 school year Lenham Primary has received £23,612 in funding. So far we have used some of this money to purchase:

- Sport package from the Lenham School (£9750)
- Amy Cavanagh as part of the Lenham School package to support teachers with PE.
- Staffing for after-school competitions (£200).
- A regular after school sports club on a Monday.(A.Cavanagh).
- Cycle Circle (£480).
- Sports equipment (£49.95)

Action	What we do at Lenham Primary	How it is measured/impact.	Areas for Improvement.
Amy Cavanagh	<p>Amy Cavanagh leads 2 PE lessons every Monday for 2 classes. This changes each term so that by the end of the year Amy has taught 2 different sports to each class.</p> <p>Teachers can choose the sports she covers so that they can watch/participate in the lessons and enhance their subject knowledge and teaching of these sports.</p> <p>Amy also leads an afterschool club on Mondays.</p>	<p>Children are very familiar with Amy having been taught by her in previous years.</p> <p>Her lessons are engaging and children enjoy having her for 2 terms.</p> <p>By using Amy to offer an afterschool club each term we are able to enter more competitions and target pupils who may not usually take part (KS1,PP).</p>	<p>Ensure copies of Amy's planning are kept in school on the shared network for future use.</p>
Staffing for After school competitions.	<p>We have entered teams into several competitions so far this year.</p>	<p>So far in 2018 we have entered teams into competitions for basketball (2 competitions), football and Year 1&amp;2 multi skills.</p>	<p>Conduct a pupil survey to see which clubs pupils would like to do in the coming terms.</p>

	<p>These competitions have included all year groups from Year R to 6 and have built on the sports covered in lessons and in after school clubs.</p>		<p>Mr Brown and Mrs Prescott to continue to liaise about clubs and competitions to ensure continued participation.</p> <p>Mrs Prescott to keep a club and competitions list.</p> <p>Clubs to be promoted during assemblies, weekly news and weekly bulletin.</p>
Cycle Circle	<p>Instructors come in and spend several days with Rainbow class using balance bikes. They teach them the foundation skills of cycling and give them an opportunity to get outside and enhance their balance and coordination.</p>	<p>Feedback is given to Year R teacher.</p> <p>Children enjoy the sessions and it provides an opportunity to all children from all backgrounds in the class to experience cycling and learn new skills.</p>	<p>Feedback and observations to also be passed on to PE subject lead.</p>
