Dealing with children/staff showing symptoms	Staff and children	1. Minimise contact with individuals who are unwell by ensuring that those who have COVID-19 symptoms, or who have someone in their household who does, do not attend school  Ensuring that pupils, staff and other adults do not come into school if they have COVID-19 symptoms, or have tested positive in the last 10 days, and ensuring anyone developing those symptoms during the day is sent home, are essential actions to reduce the risk in school and further drive down transmission of COVID-19.  All schools must follow this process and ensure all staff are aware of it.  If anyone in school becomes unwell with a new and persistent cough or high temperature, or has a loss of or change in, their normal sense of taste or smell, they must be sent home and advised to	Low/medium	Staff to be given RA and to sign working conditions.	НТ	5/3/21

follow 'stay at home' guidance for households		
with possible or confirmed COVID-19 infection		
guidance for households with possible or		
confirmed coronavirus (COVID-19) infection		
This sets out that they must self-isolate for at		
least 10 days and should arrange to have a test		
to see if they have COVID-19.		
Other members of their household (including any		
siblings) should self-isolate for 10 days from the		
day after the individual tested positive		
If a child is awaiting collection, they should be		
moved, if possible, to the Isolation Room. Ideally,		
the door should be closed, depending on the age		
and needs of the child with appropriate adult		
supervision. Ideally, a window should be opened		
for ventilation.		
If they need to go to the bathroom while waiting to		
be collected they should use the toilet within the		
Isolation Room area. The bathroom must be		
cleaned and disinfected using standard cleaning		
products.		
PPE must be worn by staff caring for the child		
while they await collection if a distance of 2		
metres cannot be maintained. More information		
can be found in the following guidance		
www.gov.uk/government/publications/safe-		
working-in-education-childcare-and-childrens-

NHS Test and Trace.		
Everyone must wash their hands thoroughly for		
20 seconds with soap and running water or use		
hand sanitiser after any contact with someone		
who is unwell. The area around the person with		
symptoms must be cleaned after they have left to		
reduce the risk of passing the infection on to		
other people.		

Washing hands regularly	Staff and children	PHE is clear that routinely taking the temperature of pupils is not recommended as this is an unreliable method for identifying COVID-19.  COVID-19 is an easy virus to kill when it is on skin. This can be done with soap and running water or hand sanitiser. School must ensure that pupils clean their hands regularly, including when they arrive at school, when they return from breaks, when they change rooms and before and after eating. Regular and thorough hand cleaning is going to be needed for the foreseeable future. As a school we must consider and implement the following points:  • Every classroom has hand santisier. • Supervision of hand sanitiser use given risks around ingestion. Small children and pupils with complex needs should continue to be helped to clean their hands properly. Skin friendly cleaning wipes can be used as an alternative. • Building these routines into school culture, supported by behaviour expectations and helping ensure younger children and those with complex needs understand the need to follow them. • A timetable has been generated telling staff when to wash hands.	Low/medium	Staff to be given RA and to sign working conditions.	НТ	5/3/21
Ensure good respiratory hygiene by promoting 'catch it, bin it, kill it' approach	Staff and children	The 'catch it, bin it, kill it' approach continues to be very important, so we must ensure that we have enough tissues and bins available in the school to support pupils and staff to follow this routine. As with hand cleaning, schools must	Low/medium	Staff to be given RA and	НТ	5/3/21

possible							
	<u> </u>						

possible to minimise contacts and mixing while	to sign working	
delivering a broad and balanced curriculum.	conditions.	
The overarching principle to apply is reducing the		
number of contacts between staff and pupils. This		
can be achieved through keeping groups		
separate (in 'bubbles') and through maintaining		
distance between individuals. These are not		
alternative options and both measures will help,		
but the balance between them will change		
depending on:		
Children's ability to distance		
The layout of the school		
The feasibility of keeping distinct groups		
separate while offering a broad		
curriculum		
It is likely that for younger children the emphasis		
will be on separating groups. For children old		
enough, they should also be supported to		
maintain distance and not touch staff where		
possible.		
The points to consider and implement are set out		
in the following sections:		
_		
a. How to group children		
Children and staff are placed in bubbles, these		
bubbles do not mix with other bubbles. Toilet for		
bubbles are allocated.		
b. Measures within the classroom		
Maintaining a distance between people whilst		
inside and reducing the amount of time they are		
in face to face contact lowers the risk of		

transmission. Ideally, adults should maintain 2		
metre distance from each other, and from		
children. We know that this is not always		
possible, particularly when working with younger		
children, but if adults can do this when		
circumstances allow that will help. In particular,		
they should avoid close face to face contact and		
minimise time spent within 1 meter of anyone.		
When staff or children cannot maintain		
distancing, particularly with younger children in		
primary school, the risk can also be reduced by		
keeping pupils in smaller, class-sized groups.		
c. Measures elsewhere		
Bubbles are kept apart by staggered breaks and		
through being given areas to play.		
d. Measures for arriving at and leaving school		
We have 2 method for arrival and collection,		
depending on weather.		
Winter months		
We have 2 enterance for arriving to school.		
Parent wearing masks may enter the playground,		
socially distanced to drop off Year R-2 children.		
Veer 2.6 shildren welk independently up the drive		
Year 3-6 children walk independently up the drive to enter school.		
Collection is using the same areas but all parents		
must wear masks and collect children from		
different socially distanced areas.		

		Common Months	-			
		Summer Months				
		Parents enter the school site with their children at the field double gate. Parents must socially distance walking up the drive and wear masks at all times on school site.				
		Parents and children walk onto the field and walk around the outside of the building dropping children off at their classroom outside door. It is a giant one way system.				
		Collection runs the same, children are collected from outside doors and walk off site.				
Engage with the NHS Test and Trace process	Staff and children	Schools must ensure they understand the NHS Test and Trace process and how to contact the local PHE health protection team  www.gov.uk/guidance/contacts-phe-health- protection-teams  Schools must ensure that staff members and parents/carers understand that they will need to be ready and willing to:  a. Book a test (www.gov.uk/guidance/coronavir us-covid-19-getting-tested) if they or their child are displaying	Low/medium	Staff to be given RA and to sign working conditions.	HT	5/3/21
		symptoms. The main symptoms are a high temperature, a new continuous cough and/or a loss or change to your sense of smell or taste. Staff and pupils must not come into the school if they have symptoms, and must be sent home to self-isolate if they				

develop them in school. All	
children can be tested, including	
children under 5, but children	
aged 11 and under will need to	
be helped by their parents/carers	
if using a home test kit.	
b. Provide details of anyone they	
have been in close contact with if	
they were to test positive for	
COVID-19 or if asked by NHS	
Test and Trace to self-isolate	
(www.gov.uk/government/publica	
tions/covid-19-stay-at-home-	
guidance/stay-at-home-	
guidance-for-households-with-	
possible-coronavirus-covid-19-	
infection) if they have been in	
close contact with someone who	
develops coronavirus symptoms	
or someone who tests positive	
for COVID-19	
c. Self isolate if they have been in	
close contact with someone who	
tests positive for COVID-19, or if	
anyone in their household	
develops symptoms of COVID-19	
Anyone who displays symptoms of COVID-19	
can and should get a test. Tests can be booked	
online through the NHS testing and tracing for	
coronavirus website,	
www.nhs.uk/conditions/coronavirus-covid-	
19/testing-for-coronavirus or ordered by	
telephone via NHS 119 for those without access	
to the internet. Essential workers, which includes	
to the internet. Essential workers, which includes	

		anyone involved in education or childcare, have priority access to testing.				
		Schools should ask parents/carers to inform them immediately of the results of a test:				
		If someone with symptoms tests negative for coronavirus (COVID-19), then they should stay at home until they are recovered as usual form their illness but can safely return thereafter. The only exception to return following a negative test result is where an individual is separately identified as a close contact of a confirmed case, when they will need to self-isolate for 10 days from the date of that contact.				
		If someone with symptoms test positive, they should follow the guidance (www.gov.uk/government/publications/covid-19-stay-at-home-guidance) and must continue to self-isolate for at least 10 days from the onset of their symptoms and then return to school only if they do not have symptoms other than cough or loss of sense smell/taste. This is because a cough or anosmia can last for several weeks once the infection has gone. The 10-day period starts from the day when they first became ill. If they still have a high temperature, they should keep self-isolating until their temperature returns to normal. Other members if their household should continue self-isolating for the full 10 days from the day after the individual tested positive.				
Manage confirmed cases of COVID-19 amongst the school community	Staff and children	Schools must take swift action when they become aware that someone who has attended has tested positive for COVID-19. Schools can contact the dedicated advice service introduced by Public Health England (PHE) and delivered by the NHS Business Services Authority. This can be reached by calling the DfE Helpline on 0800 046 8687 and selecting option 1 for advice on the action to take in response to a positive case.	Low/medium	Staff to be given RA and to sign working conditions.	НТ	5/3/21

The advice service will carry out a rapid risk assessment to confirm who has been in close contact with the person during the period that they were infectious, and ensure they are asked to self-isolate. If, following triage, further expert advice is required the advisor will escalate the school's call to the PHE local health protection team. The advice service (or PHE local health protection team if escalated) will work with schools in this situation to guide them through the actions they need to take. Based on the advice from the health protection team, schools must send home those people who have been in close contact with the person who has tested positive, advising them to self-isolate for 10 days from the day after contact with the individual tested positive. Close contact means: Direct close contact – face to face contact with an infected individual for any length of time, within 1 metre, including being coughed on, a face to face conversation, or unprotected physical contact (skin-to-skin) Proximity contacts – extended close contact (within 1 or 2 metres for more than 15 minutes) with an infected individual. Travelling in a small vehicle, like a car, with an infected person. The advice service (or PHE local health team if escalated) will provide definitive advice on who must be sent home. To support them in doing so,

it is recommended schools keep a record of

		pupils and staff in each group and any close contact that takes place between children and staff in different groups.				
Contain any outbreak by following local health protection team advice	Staff and children	If schools have 2 or more confirmed cases within 14 days, or an overall rise in sickness absence where coronavirus is suspected, they may have an outbreak, and must continue to work with the local health protection team who will be able to advise if additional action is required.  In some cases, health protection teams may recommend that a larger number of other pupils self-isolate at home as a precautionary measure – perhaps the whole site or year group. If schools are implementing controls from this list, addressing the risks they have identified and therefore reducing transmission risks, whole school closure based on cases within the school will not generally be necessary, and should not be considered except on the advice of health protection teams.  In consultation with the local Director of Public Health, where an outbreak in a school is confirmed, a mobile testing unit may be dispatched to test others who may have been in contact with the person who has tested positive. Testing will first focus on the person's class, followed by their year group, then the whole school if necessary, in line with routine public health outbreak control practice.	Low/medium	Staff to be given RA and to sign working conditions.	НТ	5/3/21

vulnerable		clinically extremely vulnerable (CEV or shielding list)	High	Staff to be	HT	5/3/21
		was published on 13 October. The guidance provides		given RA and		
		advice on what additional measures individuals in this		to sign working		
		group can take tailored to each Local COVID Alert Level.		conditions.		
		In local restriction tier 4 areas, individuals who are				
		clinically extremely vulnerable are advised to work				
		from home and where this is not possible they should				
		go into work. Individuals in this group will have been				
		identified through a letter from the NHS or from their GP and may have been advised to shield in the past,				
		most recently in November 2020.				
		Any staff in Extremely Clinically vulnerable group will work from home.				
		All other staff in local restriction tier 4 can continue to attend work, including those living in a household				
		with someone who is clinically extremely vulnerable.				
		All staff can continue to attend school in local restriction tiers 1, 2 and 3.				
		Under local restriction tier3, staff and employers may wish to discuss flexibilities that support clinically				
		extremely vulnerable staff, such as staggered start				
		times to reduce travel during rush hour.				
	Staff					
Staff who are clinically vulnerable		Clinically vulnerable staff can attend school. While in school they should follow the sector-	Medium	Staff to be given RA and	нт	5/3/21

		specific measures in this document to minimise the risks of transmission.  This includes taking particular care to observe good hand and respiratory hygiene, minimising contact and maintaining social distancing in line with the provisions set out in section 6 of the 'prevention' section of this guidance. This provides that ideally, adults should maintain 2 metre distance from others, and where this is not possible avoid close face to face contact and minimise time spent within 1 metre of others. While the risk of transmission between young children and adults is likely to be low, adults should continue to take care to socially distance from other adults including older children and adolescents.  People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace unless advised otherwise by an individual letter from the NHS or a specialist doctor.		to sign working conditions.		
Staff who are pregnant	Staff	The following recommendations apply for women less than 28 weeks pregnant with no underlying health conditions that place them at a greater risk of severe illness from coronavirus (COVID-19) You must first have a workplace risk assessment with your employer and occupational health team. From the risk assessment a decision will be made of how the member of staff continues to work.  The following recommendations apply for pregnant women who are 28 weeks pregnant and beyond or with underlying health conditions that	High	Meeting with staff member, HT and personnel.	HT	As soon as aware of pregnancy and reviewed every term.

		place them at a greater risk of severe illness from coronavirus If you are 28 weeks pregnant and beyond, or if you are pregnant and have an underlying health condition that puts you at a greater risk of severe illness from COVID-19 at any gestation, you should take a more precautionary approach. This is because although you are at no more risk of contracting the virus than any other non-pregnant person who is in similar health, you have an increased risk of becoming severely ill and of pre-term birth if you contract COVID-19. Your employer should ensure you are able to adhere to any active national guidance on social distancing and/or advice for pregnant women considered to be clinically extremely vulnerable (this group may previously have been advised to shield).  At 28 weeks staff will be asked to work from home to keep them safe.				
Lunchtime routine	Staff and Children	Rainbow children will eat their lunch in the hall, supervised by MDM supervisor, who will wear a face shield. No other children will be in the hall.  Year 1 and 2 will eat lunch in the hall but be seprated by 2m social distancing. Aagain the MDM supervisor will support them.  KS2 Children will collect their lunch from the hall, maintaining social distancing and eat their lunch in their classroom bubble, supervised by an adult in their bubble.	Medium	Staff to be given RA and to sign working conditions.	НТ	5/3/21

Face masks	Staff and children	Any adult entering school site MUST wear a mask. Any adult who is not wearing a mask cannot enter school site.  If adult is exempt they must provide evidence and collect/ drop off children late for their safety.  Staff must challenge	Medium	Staff to be given RA and to sign working conditions.	НТ	5/3/21
Equipment	Staff and children	All PE and play equipment will be:  - Only used by the bubble - Put into 72 hour storage if it needs to be used by more than one year group.  Classroom equipment will not be shared between bubbles unless cleaned.  Chromebooks will be used across phases but cleaned at the end of every week.	Medium	Staff to be given RA and to sign working conditions.	нт	5/3/21
Ventilation	Staff and Children	Every breaktime and lunchtime the classroom doors will remain open to allow for rooms to be purged.  Up high windows will be open unless freezing conditions.	Medium	Staff to be given RA and to sign working conditions.	НТ	5/3/21
Wraparound care	Staff and Children	Wraparound care will run as a Year R/1/2 bubble and KS2 bubble. The groups will be kept separate but share the same hall space. As much as possible they will be outside.	Medium	Staff to be given RA and to sign working conditions.	НТ	5/3/21
Lateral Flow Tests	Staff and children	All staff who have not had COVID are completing twice a week lateral flow tests. These take place on Sunday and Wednesday.	Medium	Staff to be given RA and	НТ	5/3/21

	Those who have had COVID are waiting 90 days before starting testing. Dates have been gathered.			to sign working conditions.
